Study design

Randomised controlled trial

Primary study design

Interventional

Secondary study design

Randomised controlled trial

Study setting(s)

Hospital

Study type(s)

Prevention

Participant information sheet

Condition

Other injury, occupational diseases, poisoning

Interventions

1. Pre-school injury prevention programme
2. No prevention programme

25/09/2012: Please note that this trial was stopped due to a lack of funding.

Intervention Type

Other

Phase

Not Applicable

Primary outcome measure

A&E attendance rates.

Secondary outcome measures

1. Home risk factor prevalence
2. Injury severity
3. Injury admissions to hospital

Overall study start date

01/01/2000

Overall study end date

31/01/2002

Reason abandoned (if study stopped)

Lack of funding/sponsorship

Eligibility

Participant inclusion criteria

Successive 1 year birth cohorts from 1997 in Bath City.

Participant type(s)

Patient

Age group

Child

Sex

Both

Target number of participants

Not provided at time of registration

Participant exclusion criteria

Does not match inclusion criteria

Recruitment start date

01/01/2000

Recruitment end date

31/01/2002
